

- DESCRIPTION.**

It is a pack of three-square substructures manufactured with aluminium.

Each substructure is covered with a numbered aluminium sheet and there are disposed the same Damero aluminum sheets (sheets with small reliefs) such as ground, that apart from giving it a great aesthetic, will make an anti-sliding surface.

The dimensions of the cubes allow the easy storage by introducing one inside another, thus occupying minimal space.

Ref.	Finish	Dimensions (m)	Weight (Kg.)
EEP027	Aluminium	1 bag of 0,60x0,60x0,50	18,09
