

- DESCRIPTION.**

Set of tennis posts made of 80x2 quality S-235-JR pickled steel. They have some plates mechanized by laser to achieve the correct placement of the net guide pulleys.

The net tensioning is done by a winch.

The net height will be of 1070 millimeters.

The base where the posts are welded is compound of a tubular profile joined to the back where the counterweights are welded ensuring the fixation of the posts. Moreover, these counterweights have wheels to facilitate their transport.

Ref.	Finish	Dimensions (m)	Weight (Kg.)
EPT003	100% Polyester (define color)	1 bag of 1,10x0,84x0,80	25
