

- DESCRIPTION.**

Set of tennis posts designed according to the **NIDE 2002 tennis regulation.**

Made with 120 millimeters diameter extruded aluminium matrix. They have an exterior adjustable mechanism formed by winch and net pulleys that are fixed and moved through the matrix slot allowing to position it at the required height according to the regulation.

The net tensioning is done by an exterior winch.

The posts are fixed to the ground through 40 centimeters length anchorages for staying perfectly leveled in the game position.

Ref.	Finish	Dimensions (m)	Weight (Kg.)
